

3rd International Experts Forum & Policy Dialogue Workshop

Research & Innovation for healthy living in a healthy environment.

Fostering a health-promoting environment and reducing the environmental impact of the health system.

December 10th, 2024, 11.00 – 13.00 CET | on-line

#HEALTH #ENVIRONMENT #CLIMATE #INTERNATIONALCOOPERATION #POLICIES
#RESEARCH&INNOVATION #PREVENTION #STAKEHOLDERS ENGAGEMENT #MEDITERRANEAN

This on-line workshop, co-organised by the [ENRICH GLOBAL Health Innovation Thematic Group](#) and the [ENRICH GLOBAL Climate Change and Sustainability Group](#), is addressed at researchers, innovators, policy makers, and other R&I stakeholders from any region of the world, interested in sharing a reflection on how to address the **global challenge of healthy living in a healthy environment**.

The workshop will provide insights from international initiatives, connecting health professionals with experts on environmental issues. It will especially highlight strategies in the EU and the Mediterranean basin, provide good practice examples and allow to connect stakeholders from different disciplines and geographic horizons, encouraging new cooperation opportunities in R&I to reduce environmental risks to human health and the impact of health industry and systems on the environment.

Additionally, the workshop aims to integrate interested health specialists into the [ENRICH GLOBAL Health Innovation community of experts](#) from across the globe, striving to stimulate further exchanges and emergence of new initiatives for stronger health-related international collaboration.

Moreover, this event will be the opportunity to present the [Euro-Mediterranean Hub for R&I](#), a portal serving as a learning and collaborative platform for Mediterranean cooperation and R&I stakeholders' interaction.

The webinar is free of charge, but registration is mandatory.

Agenda
(time zone: CET)

Link to connect shall be provided to registered participants before the event
